

## Welcome to IP Softphone 2050 Voice Mail Setup

Open IP 205 Softphone app  
Click on Green arrow  
Type in default: 0000

Click OK (the button below the words)  
Now type in your own password

Do it a second time (see the again on the scree)  
You will hear a beep to verify and setup your name.

Now retry or play and click OK (terms on the bottom of the screen)

We are now in voice mail.

You are now in the admin section You will see this when you log into the mailbox.  
Click on ADMIN and record your greeting

Here is where you can set your greeting or change your password or quit.
