

NOTIFICATION ASBESTOS REINSPECTION

In compliance with the Asbestos Hazard Emergency Response Act (AHERA), workers and building occupants, and the legal guardians must be informed at least once each school year about inspections, response actions and periodic surveillance of Asbestos Containing Building Materials (ACBM).

Since the last notification posted on our website May 18, 2015, all facilities have been under surveillance in accordance with our operation and maintenance program. In May and October, 2015, a six month periodic surveillance has been completed in house.

Upon written request, all inspection reports, management plans, and other related reports are available for public inspection by contacting the District Office and/or the specific building Principal.
